

Follow-up Questions

Question 1a: “With regard to using vaccination appointments as a chance to screen for other health conditions, which health condition screenings would you prioritize for the Black community?”

Answer: Please see the list below of screening suggestions that are relative to the African American community.

Screenings/Health Education Information

**Indicates a potential need for a follow-up appointment to conduct a more comprehensive screening*

1. Food Insecurity
2. Blood Pressure
3. Weight
4. *Mental Health
5. *Diabetes
6. *Glaucoma
7. *Cholesterol
8. * Kidney Function
9. *Prostate Cancer
10. *Cervical Cancer
11. *Breast Cancer
12. *Cardiovascular Disease

Question 1b: “Are there any health condition screenings that have been especially successful, if this approach has been previously implemented.”

Answer: Unfortunately, I couldn’t find a definitive example of a patient care program carrying out this initiative. However, I did come across a few research publications related to the need for more patient engagement during outpatient clinic appointments to influence positive healthier behavioral changes. This may suggest a need for implementation among healthcare providers.
